# Frictionless mobile payments for merchants.
## Simple, made possible.

## MyMobileMoney

Our mobile payments application is the tool for businesses to process payments quickly and securely, anytime, anywhere. It's the smart solution built for mobile payments. Now, running your business on-the-go is never a problem.

NCR

# For those on the go

## Be where your customes are

MyMobileMoney, from NCR Payment Solutions, is the perfect answer to solving today's evolving restaurant environment. It allows you to be where your customers are. Be flexible for your customers and allow them to pay for your goods or services, wherever and whenever you need.

Meet your payment needs with a single, stand-alone solution. With MyMobileMoney, you can accept credit, debit*, EMV and manual card entry payments on the go, keeping you flexible and able to meet your customers where they are. You can also send detailed receipts via e-mail, straight to your customers. Our mobile solution is easy to install and set up, so you can start processing payments right away!
